viral hepatitis & sexual health workforce

# National Hepatitis B s100 Prescriber

Upon successful completion of this free training and the associated case assessment, eligible participants may apply to the relevant state departments of health for authority to prescribe Section 100 (s100) drugs for the management of hepatitis B in Australia.

## Session Details:

**Session 1:** Wednesday 12 June 2024, 6:30PM – 8:30PM (AEST)

**Session 2:** Wednesday 19 June 2024, 6:30PM – 8:30PM (AEST)

**Session 3:** Wednesday 26 June 2024, 6:30PM – 8:30PM (AEST)

Online, via Zoom

**Attendance at all sessions is required to receive accreditation.**

## Course components:

This course will be presented as a mix of self-paced and live facilitated learning, providing attendees an opportunity to discuss and practice strategies with peers and specialists. Total expected time to complete all self-paced and live components is 11 hours.

## Learning Outcomes:

Through online learning and virtual teaching, participants will learn to:

- Outline the critical role of primary care in the diagnosis, management and treatment of people living with chronic hepatitis B
- Plan long-term care, including guideline-based monitoring and hepatocellular carcinoma screening, for patients with chronic hepatitis B
- Select and prescribe first-line antiviral treatment when clinically indicated
- Identify situations where specialist advice or referral is required
- Integrate principles of person-centred and culturally competent care into hepatitis B management
