Preventing Liver Cancer – Test and Cure Hepatitis C

A practical update in HCV management and treatment

Date: Tuesday 7th May 2024

Time: 6:30pm – 8:00pm (AWST)

Venue: Online via Zoom (Zoom dial-in link will be sent after registration)

Hepatitis C treatment is simple and highly effective. Curing hepatitis C can prevent liver cancer!

This webinar aims to provide participants with the knowledge and skills to test and cure hepatitis C (HCV) in their primary care setting and reduce the incidence of hepatocellular carcinoma (HCC).

The webinar is for WA-based general practitioners, nurse practitioners, nurses, and other primary care-based health care workers.

The interactive session will include PowerPoint presentations, quiz questions and case discussion.

Presented by:

Prof. Wendy Cheng, Gastroenterologist and Hepatologist, Royal Perth Hospital.

Learning Outcomes:

- Describe HCV screening, testing and diagnosis
- Outline the recommended HCV pre-treatment assessments
- Discuss HCV treatment options and monitoring requirements
- Explain the role of HCV prevention, management, and treatment in the decreased incidence of liver cancer
