

Clinical Education Session

Join us for an insightful online webinar that delves into the latest findings from three major international HIV conferences:

- Munich IAS Conference
- ASHM HIV & AIDS Conference in Sydney
- HIV Drug Therapy Glasgow Conference

This session will provide a comprehensive overview from clinical, research, and community perspectives, covering recent innovations, developments, and key findings in HIV treatment and prevention.

Our expert speakers will guide S100 prescribers on integrating recent advances into clinical care to enhance HIV management in Queensland. This session also aims to boost awareness, knowledge, and foster meaningful dialogue on the local relevance of these insights.

This Webinar is jointly hosted by ASHM and the Sexual Health Society of Queensland.

Date: Tuesday, 10 December 2024

Time: 6:30pm - 8:00pm (AEST)

Venue: Online via Zoom
