viral hepatitis & sexual health workforce

## NSW Hepatitis B for Nurses and Midwives

**Date:** Saturday 17 May 2025

**Time:** 8:30am – 5:00pm (AEST)

**Attendance:** In Person | Rydges Sydney Central, Gadigal Country, Sydney, NSW

28 Albion St, Surry Hills NSW 2010

### Description

This course will provide Nursing and Midwifery Professionals with advanced practical skills and knowledge in hepatitis B nursing.

The course includes presentations and case discussions that introduce the epidemiology and natural history of hepatitis B, vaccination, testing, fibrosis assessment, advanced liver disease, stigma and discrimination and the cultural context of hepatitis B nursing and midwifery.

### Target Audience

Nursing and Midwifery Professionals working with patients at risk of or living with hepatitis B based in NSW.

### Speakers

Kristen McKee – *Clinical Nurse Consultant, Royal Prince Alfred Hospital*

Jana Van der Jagt – *Nurse Practitioner, Hepatology, Mid North Coast Local Health District NSW*

### Learning Outcomes

Through self-paced learning and face-to-face teaching, participants will learn to:

- Outline the epidemiology of hepatitis B and the risk factors for hepatitis B transmission.
- Identify opportunities for screening and testing, vaccination and linkage to care
- Outline nurses' and midwives' role in providing culturally appropriate care, free from stigma and discrimination
- Outline the nurses' and midwives' role in identifying, diagnosing, assessing, monitoring and treating patients with chronic hepatitis B and advanced liver disease.
- Utilise innovative strategies and models of care that deliver care for patients with hepatitis B
