ASHM, in collaboration with the National Prisons Hepatitis Network, invites you to a national Lunch & Learn webinar exploring the critical role of Opioid Agonist Treatment (OAT) in preventing hepatitis C (HCV) in correctional settings.

Delivered by experts from across the country, the session features insights from the authors of the National Consensus Statement on OAT in custodial settings, alongside real-world experiences from New South Wales and Queensland correctional programs.

### Featured speakers

**Dr Rebecca Winter**

Deputy Head of Justice Health and a Postdoctoral Research Fellow at the Burnet Institute, with a co-appointment at St Vincent's Hospital Melbourne.

**Dr Katerina Lagios**

Clinical Director Population Health & Co-Clinical Director Drug and Alcohol Justice Health NSW.

**Graham Kraak**

Director of the Office for Prisoner Health and Wellbeing at Clinical Excellence Queensland.

**Dr Thileepan Naren**
