Hepatitis B and Culturally Responsive Care for Refugee, Migrant and Diverse Communities

Date: Wednesday, 30 July 2025

Time: 6:30pm – 8:00pm (AEST)

Virtual Attendance: Online via Teams

Description

This webinar aims to support healthcare professionals in building the skills and confidence to provide trauma-informed, culturally responsive care to people affected by hepatitis B. It focuses on the specific needs of individuals from culturally and linguistically diverse, refugee, and migrant communities, highlighting how culture, migration, and trauma can shape health and care experiences. This course will offer practical strategies to improve communication and deliver respectful, person-centred care to support a positive patient experience.

Target Audience

General Practitioners, Nurse Practitioners, Nurses and others interested in healthcare work in Queensland.

Speakers

- Dr Rachel Claydon | GP, Mater Refugee Complex Care Clinic
- Meryl Jones | Nurse Unit Manager, Mater Refugee and Multicultural Health Service
- Zhihong Gu | Program Manager, Love Health Program, Ethnic Communities Council of Queensland (ECCQ)
- Chieh-Ying (Cassandra) Chen | Chinese Community Health Worker, Love Health Program, Ethnic Communities Council of Queensland (ECCQ)
- Additional speaker/s to be confirmed.

Learning Outcomes

- Identify priority populations for hepatitis B testing in Australia.
- Identify the challenges and barriers experienced by people from migrant and refugee backgrounds who are living with chronic hepatitis B.
- Outline the importance of providing culturally responsive and trauma-informed health care, including working with interpreters.
- Review effective strategies to improve health outcomes for people from culturally and linguistically diverse communities living with chronic hepatitis B.
