## WA Hepatitis B for Nurses and Midwives – In Person

**Date:** Friday 25 July 2025

**Time:** 10:00am – 3:00pm (AWST)

**Attendance:** In person | Rydges Perth Kings Square,  
621 Wellington St, Perth WA 6000

### Description

This course will provide Nursing and Midwifery Professionals with advanced practical skills and knowledge in hepatitis B nursing.

The course is delivered in a face-to-face delivery which introduces the epidemiology of hepatitis B, vaccination and prevention, understanding testing, and serology, initial assessment includes Fibro scan assessment and the cultural context of hepatitis B nursing and midwifery. The second half of the day will involve case discussions and presentations on monitoring and management of chronic hepatitis B and HCC surveillance.

### Target Audience

Nursing and Midwifery Professionals working with patients at risk of or living with hepatitis B.

### Speakers

Brenda Kamau | Clinical Nurse Manager, WA Tuberculosis Control Program and Humanitarian Entrant Health Service, Public Health and Clinical Excellence, North Metropolitan Health Service

### Learning Outcomes

- Examine hepatitis B epidemiology
- Identify opportunities for screening and testing, vaccination and linkage to care
- Explore the role of nurses and midwives in providing culturally responsive care that is free of stigma and discrimination
- Describe nurses' and midwives' roles in engaging people with hepatitis B in ongoing monitoring and treatment
