Course Overview

This two-day in-person training course helps nurses and midwives understand the public health aspects and clinical management of common STIs, HIV and hepatitis B. The course helps participants develop confidence in a proactive and practical approach to health care and evidence-based practice.

Session Details

Part 1: Friday, 18 July | 9:00am – 3:30pm

Part 2: Saturday, 19 July | 9:00am – 3:30pm

Venue: Perth, TBC

Catering will be provided.

Learning Outcomes

By the end of this course, you will be able to:

1. Describe the clinical presentation and the role of nurses and midwives in managing STIs
2. Identify the priority populations for STI and BBV screening
3. Demonstrate confidence in discussing sexual health with patients
4. Describe contact tracing processes
5. Describe current HIV prevention methods
