	Time: <u>Part 1:</u> 6:30pm – 7:30pm AEST <u>Part 2:</u> 6:30pm – 8:30pm AEST		Location: Online via Teams

Featured speakers

- **Mazhar Haque** - Gastroenterologist, Mater Health Services
- **Heather McNamee** - General Practitioner, Cains Sexual Health Services

Upon successful completion of this free training and the associated case assessment, eligible participants may apply to the relevant state departments of health for authority to prescribe Section 100 (s100) drugs for the management of hepatitis B in Australia.

Learning Outcomes:

- Outline the critical role of primary care in the diagnosis, management and treatment of people living with chronic hepatitis B.
- Plan long-term care, including guideline-based monitoring and hepatocellular carcinoma screening, for patients with chronic hepatitis B.
- Select and prescribe first-line antiviral treatment when clinically indicated
- Identify situations where specialist advice or referral is required.
- Integrate principles of person-centred and culturally competent care into hepatitis B management.

This course is pending ACNP, ACCRM and RACGP accreditation.
