# Hepatitis B Advanced Management and Prescribing

**Date:** Saturday, 21 March 2026

**Time:** 9:00am - 1:00pm

**Location:** Toowoomba, QLD

**Suitable for:** General Practitioners, Nurse Practitioners, other community based medical practitioners based in QLD.

Upon successful completion of this free training and the associated case assessment, eligible participants may apply to the relevant state departments of health for authority to prescribe Section 100 (s100) drugs for the management of hepatitis B in Australia. A limited number of scholarships are available for this course.

## Learning Outcomes

1. Outline critical role of primary care for people living with chronic hepatitis B
2. Plan long-term care, including guideline-based monitoring and hepatocellular carcinoma screening, for patients with chronic hepatitis B
3. Select and prescribe first-line antiviral treatment when clinically indicated
4. Identify situations where specialist advice or referral is required
5. Integrate principles of person-centred and culturally competent care into hepatitis B management

## More information
