

# National Nurses & Midwives' Hepatitis B Update Series

 **Date:** Thursday, 25 June 2026

 **Time:** 6:30pm – 8:30pm AEST

 **Location:** Online - Zoom

**Suitable for:** Nurses and midwives working in Australia who see patients living with HBV or from high-prevalence populations and have previous experience and knowledge of hepatitis B.

This course dives into core elements of a nurse and midwife's scope of practice relating to hepatitis B. Nursing and midwifery professionals are provided with in-depth, practical and person-centred hepatitis B care information, with a different will focus and topic each session. This sessions topic is Hepatitis B in pregnancy and infants.

## Learning Outcomes

- Describe the importance of inclusive, person-centred and culturally safe care in the management of hepatitis B patients
- Discuss the role of the nurse and midwife using evidence-based care for people living with hepatitis B.
- Identify opportunities for quality improvement activities within practice with regards to hepatitis B management

***All participants who attended the course in full will be awarded a Statement of Attendance.***

## Featured speakers

- **Adam Gregson** - Nurse Practitioner, Royal Perth Hospital
- **Jessica Lam** - Midwife, Hornsby Hospital
