Fundamentals of Sexual and Reproductive Health in Pharmacy Practice

Date and Time:

Session one: Thursday, 30 April

2026 7:00pm – 8:45pm (AEST)

Session two: Thursday, 7 May 2026

7:00pm – 8:45pm (AEST)

Suitable for: Pharmacists, Pharmacy Students, Pharmacy Technicians, Pharmacy Assistants and Pharmacy Managers. Please note, this is not limited to community pharmacy settings.

Location: Online

This interactive online course is designed to help pharmacy staff confidently navigate sensitive sexual and reproductive health concerns, especially in less private settings. The program covers topics such as sexually transmissible infections, contraception and unintended pregnancy. Knowledge will be put into practice through various case scenarios and by exploring strategies to improve access to sexual and reproductive health care across various pharmacy settings.

Featured speakers

- Sara Yeganeh
- Dr Chavy Arora
- Cherie Bennett
- Brooke Booth

Endorsement and CPD

This activity will be resubmitted to the Pharmaceutical Society of Australia for 2026.

Learning Outcomes

On completion of this course, participants will be able to:

- Discuss effective, inclusive, and non-judgemental communication in sexual and reproductive health (SRH) care.
- Identify common sexual and reproductive health presentations, including contraception needs and symptoms of STIs/RTIs.
- Examine counselling principles to support patients with sexual and reproductive health needs.
- Apply legal, ethical, and cultural considerations relevant to sexual and reproductive health practice.
- Discuss referral pathways and pharmacy-based strategies to improve access to sexual and reproductive health services.
