Viral Hepatitis in Primary Care Webinar Series

Webinar 1 - Foundations of hepatitis C and advanced liver disease

Date and Time: 2 September 2026, 6:30PM-8:30PM (AEST)

The Viral hepatitis in Primary Care webinar series gives primary care workers a comprehensive, practical overview of viral hepatitis. Over two webinars, primary care workers will learn about their role in preventing, identifying, and managing hepatitis B, C, and D in their communities.

Webinar 2 – Exploring hepatitis B and D in primary care

Date and Time: 14 October 2026, 7:00PM-9:00PM (AEDT)

In this continuation from the first webinar, this session will demonstrate how national viral hepatitis guidelines and decision-making tools can be utilised in practice across testing, management, treatment, and referral pathways. Incorporating guidance and case studies on hepatitis B and D, this series conclusion provides a comprehensive summary of the key considerations for primary care workers when it comes to viral hepatitis management.

Endorsement

Endorsement for both activities are currently pending with RACGP and ACRRM. These activities may be suitable for self-claiming CPD hours with your professional body. An estimated equivalent of 1.5 CPD hours for each webinar applies. A statement of attendance will be provided for full attendees.

Hepatitis B s100 prescribers completing the second webinar will also earn one hepatitis B s100 Prescriber Point.
