

Sexual Health in Primary Care

Date: Saturday, 7 Nov 2026

Time: 9:00am - 3:45pm (AEST)

Venue: Gold Coast - TBC

Suitable for: Clinicians working in Primary Care. In particular GPs, Nurses and Nurse practitioners

This workshop provides primary care clinicians with the knowledge, practical skills and resources to strengthen STI screening, diagnosis and management, with a focus on priority populations. It also explores strategies for preventing HIV transmission, including the role of HIV prevention and testing, and highlights the importance of timely contact tracing and partner notification in supporting individual and public health outcomes.

Featured speakers

In collaboration with Gold Coast Sexual Health Service

- Dr Ethan MacMinn | Sexual Health and Infectious Diseases Physician
- Dr Jane MacLeod | General Practitioner
- Shauna Hall | Nurse Practitioner
