

Lunch & Learn: Supporting Sexual Health in DFSV and Women's Health Services

Date: Monday, 19 October 2026

Time: 12:00pm - 1:00pm AWST

Location: Online - Zoom

Suitable for: Clinical and non-clinical staff in women's health and domestic, family and sexual violence services in WA.

Syphilis rates have tripled in Australia over the past decade. People experiencing domestic, family and sexual violence (DFSV) often face additional barriers to care and are at increased risk of sexually transmissible infections (STIs). Workers in women's health and DFSV services are uniquely positioned to support those at higher risk.

Delivered by the Centre for Women's Safety and Wellbeing (CWSW) and ASHM, this webinar provides an introduction to STIs, including syphilis, at-risk populations and risk factors, symptoms, referral pathways and sexual health conversations. Leave with practical strategies to support timely access to care and strengthen your service's response to syphilis.
